SECS/GEM Retrofit Solutions

## ErgoTech Systems, Inc.

www.secsandgem.com

## INSIGHT

Over two decades of experience in implementing and applying SECS/GEM to manufacturing automation

## NTEGRATION

Harness the power of Industry 4.0 data collection for ML/Al, advanced analytics and process improvements

Communicate with legacy, esoteric, or tailer-made hardware. Protocols for Modbus, Ethernet/IP, S7, and many more. Use SECS/GEM, OPC UA, Legacy OPC, MQTT, serial, and many other combinations

Communicate with legacy SECS/GEM systems and combine with simulations to characterize and connection to tools from the 1990s and beyond, paving the way to modernize equipment for smart manufacturing

Need Help? We can use our tools to quickly and cost-effectively build a solution for you - from project startup help and training to complete turnkey applications.
